About NZRise

- NZRise exists to represent the interests of New Zealand owned digital technology businesses
- We believe in a technology led future that is inclusive to all in Aotearoa and we advocate for digital inclusion and equality
- Our focus is to ensure Kiwi owned businesses can maximise their contribution to the New Zealand economy
- We are a membership based not-for-profit incorporated society formed in 2010

Advocacy and Government Relations

3 key areas of focus

- Government Procurement
- Skills, Capability and Workforce development
- Policy and legislative conditions

Skills, Capability and Workforce development

Talent shortages are one of the top constraints to growth reported by our members. NZRise supports the government and education system to build digital skills that improve productivity.

- Chair the Digital Skills Forum a cross government / cross industry initiative to focus on digital technology skills growth
- Provide input into degree and education level qualification development

Policy and legislative conditions

NZRise actively works with Ministers and officials to ensure the voice of our industry is considered when setting policies and legislation for businesses.

- Research and Development Tax incentives
- Government Procurement Rules
- Free Trade Agreement terms
- Copyright, privacy and other acts

Membership Community

We foster a supportive engaged business community

- We host regular events for member inviting speakers on topics from capital raising through to censorship policy.
- Join an active message board where members share challenges, seek and provide advice and communicate on common issues.
- Members gain access to experienced business members and leverage opportunities to collaborate
- Unique opportunities to participate in key conversations with officials and business leaders
